HOURS

PHYSICAL
ACTIVITY

Get ready for the mind-bending mayhem of the Crystal Team Challenge! Join forces with your team to crack the puzzles, solve the mysteries of the maze and collect as many crystals as possible before the time runs out. Each crystal will be invaluable later on in the legendary... cash grabber Dome! We could tell you more but it's more fun if you find out for yourself!

Whether your event is outdoors or indoors, The Crystal Team Challenge is packed with fun, excitement and hilarity as teams race against the time in mental and physical challenges to beat the opposition. Navigating through the four zones, teams aim to win crystals, which equates to time in the Dome finale.

Finally, count your crystals and enter the giant cash grabber Dome! If you've seen the show, it might look simple, but our contestants assure us that it's not!

HOW IT WORKS:

- Spread across your outdoor or indoor space are four activity zones with two different crystal maze challenges each.
- Teams will rotate through the zones, working together to collect precious crystals and beat the opposition, all before the time runs out!
- Every crystal you collect grants you one valuable second in the Dome finale. Beat your opponents within the time to claim a large crystal worth five whole seconds. Fail to complete the task and you'll walk away with nothing!

CHALLENGES INCLUDE:

- **Team Ski** - On giant four-man skis, teams complete a challenging course including a team sprint, slalom, tricks and jumps!
- **Nuclear Arrange** - You must retrieve the contaminated nuclear orbs from the radioactive zone and transport them safely into the decontamination tank.
- **Labyrinth** - Construct a giant 9 piece labyrinth, then manoeuvre a crystal ball through the labyrinth using the chain handles to release the crystals.
- **Dungeon Dilemma** - Arrange the colourful shields on the metal dungeon door so that the rows and columns add up to the magic number! The twist in the tail comes when you realise all the shields can go either way up!
- **Snake Swamp** - Your team must work together to navigate through a snake infested pit without losing contact with each other, in order to retrieve the crystal being closely guarded by Colin the Cobra!
- **Pyramid of Hanoi** - Rebuild a giant pyramid, moving only one piece at a time and never stacking a larger piece on top of a smaller piece!
- **Test of Numbers** - A great test of communication & memory, this tricky challenge requires your team to work together to memorise the location of each number and reveal them in the correct order.
- **Minefield Madness** - One wrong step could see the end of a team mate as you navigate blindfolded across a treacherous minefield, guided only by instrument noises from your fellow team members.

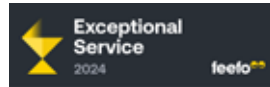

OUR CLIENT REVIEWS

We are proud winners of the Feefo 2024 Exceptional Service award. All reviews are verified through Feefo and Google Reviews.

"We had such a blast!"

"It worked brilliantly!"
